

Reach 77K+ people **learning** **to build with AI.**

GetEducated.ai is the founder-led AI education brand of Emaan Faith. We partner with AI tools and creator platforms to teach their products to creators, founders and ambitious beginners: an audience that adopts what it's shown, not one that scrolls past it.

Founder • on camera for every partnership

AI isn't the niche. Agency is.

Our audience isn't looking for another list of tools. They want a way out of overwhelm and into execution: how to use AI to create, automate, sell, learn and build a life with more control. That makes them the rare audience that actually adopts what they're shown.

01

Creators & founders

Building content, offers, communities, service businesses and digital products with AI leverage. They buy the tools they see working.

02

AI-curious beginners

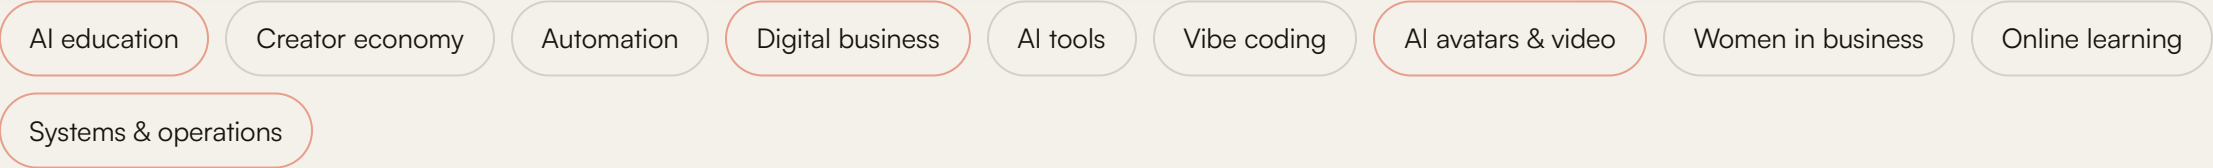

Ambitious people who know AI matters and want plain-language, practical systems instead of technical overwhelm.

03

Women designing freedom

People who want business to support life: phone-first workflows, voice notes, work-from-anywhere and self-directed income.

NICHE OVERLAP

Geography: strongest in North America, the Gulf and Europe, anchored in Toronto and Dubai, with learners in 13+ countries.

One partnership, two audiences.

A dark-themed Instagram profile card. At the top left is the Instagram logo followed by the name 'Instagram'. Below that is the handle '@geteducated.ai'. In the top right corner, there is a pill-shaped button with the text 'GetEducated.ai'. The center of the card features the number '55K' in a large, bold font, with the word 'FOLLOWERS' in a smaller, all-caps font directly underneath. Below this, it says '336 Posts'. At the bottom of the card, the text 'Carousels, Reels, AI frameworks, tool demos' is displayed.

Formats built to actually convert.

We're a studio as well as a channel: scripting, shooting, editing and publishing happen in-house. Pick one format or stack several into a campaign.

01

Short-form

Reels, Shorts and TikTok: tool demos, hooks and one-idea explainers built to travel beyond the existing audience.

02

Long-form YouTube

Tutorials, build-alongs and honest reviews. Longer watch time, higher intent, and a video that keeps working months after it publishes.

03

Live workshops

Your product taught live to an engaged audience. A real session with questions, replays and a recording you can reuse.

04

Public speaking

Keynotes, panels and workshops on stage around the world, from Cape Town to Bali to Dubai.

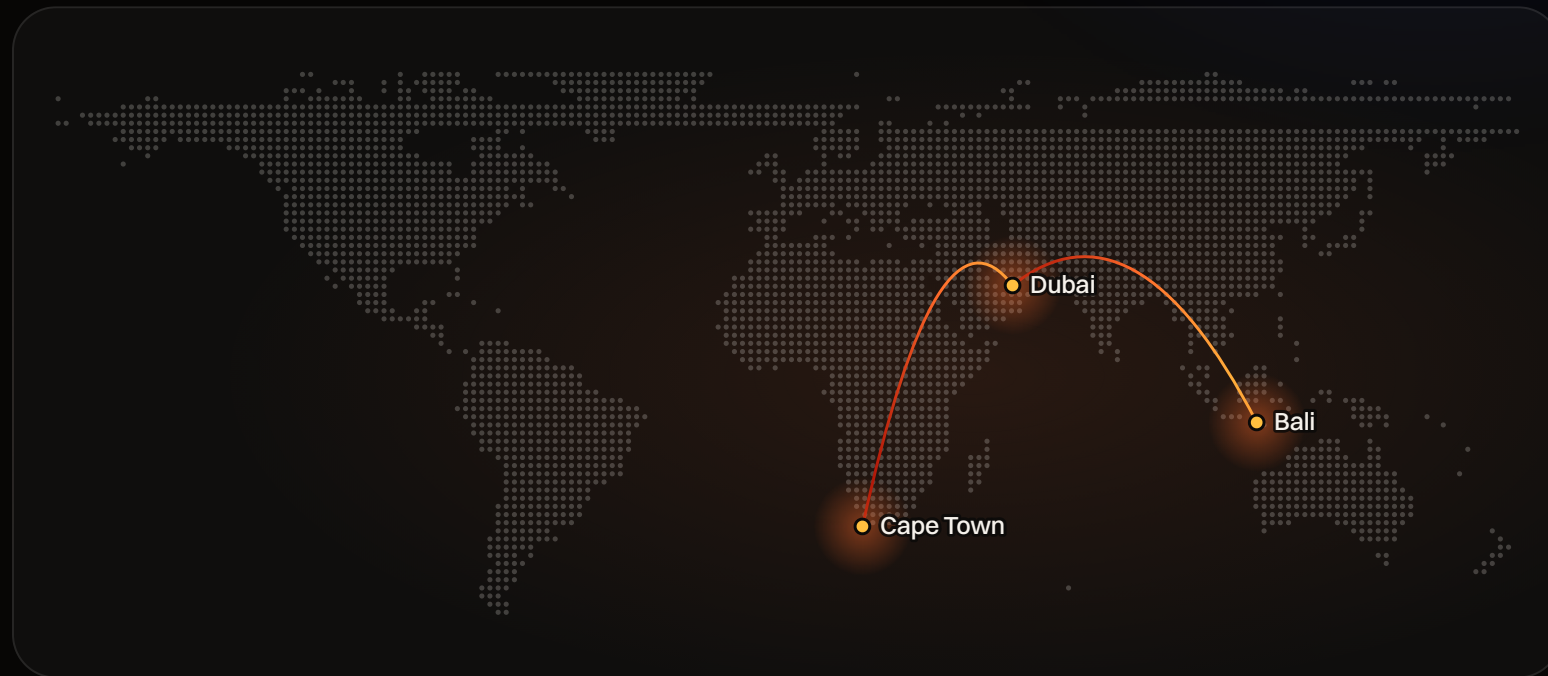

TOOLS WE TEACH AND FEATURE

Covered in our content and curriculum. Not sponsors or endorsements.

On stage, **around the world.**

Faith speaks on building with AI as a creator and founder: practical, demoted and grounded in what she builds every day. In person or online, for conferences, masterminds and teams.
